Tips for preparing your annual report:

- Gather all your information together before you start working on your MSGP Annual Report (e.g. sampling data/results, quarterly visual assessment forms, routine facility inspection forms, Stormwater Pollution Prevention Plan (SWPPP), and corrective action documentation for any benchmark exceedances).
- Provide a summary of inspection, visual assessment, and corrective action documentation you were required to record over the reporting year.
- NeT MSGP will not allow an Annual Report to be submitted with a blank response to any section. Indicate "N/A" if a section is not applicable to your facility.
- Attach file(s), as needed (not required).
- Certify your report with your electronic signature. Though the annual report may be drafted by someone with a Preparer Role, it must be certified/signed by a person possessing a Signatory Role in CDX as described in Appendix B.11.A of the MSGP or a duly authorized representative of that person as described in Appendix B.11.B of the MSGP. Therefore, ensure the appropriate person has an active CDX account with a Signatory Role and has the Sign permission for the facility within NeT MSGP.
